

**OOFERS AUSTRALIA**  
**MISSION STATEMENT**

**Create an environment of fellowship that brings together the people that have worked to build a dynamic and robust Australian oil industry wholesale sector, which continues to be of great service to our communities. Seek to establish links of communication that will provide new members and assist in the welfare of current members and their families. Encourage existing industry participants to share their knowledge on industry trends and trading conditions. In addition, the opportunity will be taken to recognise those of the OOFER community who have provided exemplary service to the Australian oil industry and the community through the provision of the "OOFERs Australia Award." Conduct a bi-annual reunion and annual AGM in accordance with our standing rules and provide a program that allows for the reunions to be hosted in a popular region of Australia. OOFERS Australia membership to be drawn from those who have worked or are working within the wholesale sector of the Australian oil industry or those closely associated with that sector.**
